Since 2013, we have proudly **served over 39,000 service members** through the Military Reconnect program, thanks in large part to the generous support of Citi.

Through Military Reconnect, MMI provides in-person outreach, financial wellness workshops, an interactive online learning community, and financial counseling resources to help service members and families achieve their financial goals.

A dedicated staff member leads our VSO and military veteran service efforts to increase the number of veterans that MMI counsels and educates every year. Leveraging our expertise and relationships, we create tailored partnerships tackling the areas of greatest need.

In 2022 the nation began to recover from the COVID-19 pandemic. However, U.S. military veterans continued to face severe economic challenges due to inflation and unforeseen employment issues. This is evidenced by the 11,862 military affiliated clients who received financial crisis counseling. MMI further assisted our military clients through Military Reconnect, facilitating 26 military-focused community events nationwide for active-duty personnel, veterans, and their family members; and served 9,719 registered clients who visited a total of 3,184 courses through the Military Reconnect interactive on-line learning community.

"My life has been changed by MMI. By becoming debt free I have reduced so much stress that I feel stronger and healthier as a whole."
